#### YOUTH, KNOWN IN DIXON, DIES IN **AUTO ACCIDENT**

#### Harold Watson, One of Sterling, Met Tragic Death

Harold Watson, aged 23, of Morrison, until recently a resident of Sterling, and known by many Dixonites, died in the Clinton, Iowa, hospital Saturday night about 10:20 o'clock of injuries sustained in an automobile accident on the Lincoln Highway, in which he sustained a fracture of the skull, a broken leg and severe cuts and bruises. Watson was a passenger in his own car which was driven by Ernest Kalb, 19 year old Morrison youth.

The two young men were seen driving about Morrison early Saturday evening by Sheriff Kelly, who attempted to follow them. They succeeded in evading him and short time later the Sheriff received a call stating that a car in which two young men were passengers, was driving on the highway near Union Grove, crowding other cars from the

Kalb was driving the car and sped westward at a high rate of speed, when passing motorists stopped to investigate the crash.

At a point in front of the Abbott farm west of Union Grove, while Kalb is said to have been driving at a rate of about 60 miles an hour, the car swerved to one side, left the highway and crashed into a telephone pole. Watson was thrown from the machine, which was completely

#### Development Chicago Money Market Urged

Urbana, Ill., March 19-(AP)-A plan for developing the Chicago money market so that savings of millions of dollars in market transactions would be effected was described today by Prof. Ivan Wright of the Department of Economics, University of Illinois, following five years of work upon it. The savings, he said, would be accomplished by the furnishing of direct market service which would enable the middle west to do its financial shopping at

The Wright plan, its developer explained today, would make a market for surplus funds of the middle west, would lower interest rates to the 15,000 correspondent banks of the Chicago' money market as well as to the producing public of the middle west, and by its work would increase the values of capital of all kinds throughout the area.

Twelve needs of the Chicago money market are pointed out in the Wright plan. These are: a further development of the stock exchange: a bond listing and trading division cloudy tonight and Tuesday; slightly of the exchange; a development of warmer Tuesday; lowest temperature Earl Dilks. #### OLD MASTERS

My doctrine is to lay aside Contentions and be satisfied: Jest do your best and praise or blame That follers that, counts all the same.

I've allus noticed great such success
Is mixed with troubles more or less, And it's the man who does the best That gits more kicks than all the rest. -James Whitcomb Riley.

#### HEALTH WORK UNDER GOVERNOR SMALL.

The health, well-being and happiness of the citizens of Illinois have never been as well safeguarded as under the administrations of Governor Len Small.

The Department of Public Health has functioned most efficiently for the people at large, through the issuance of important bulletins and suggestions on how to guard the homes, the babies, the adults, from diseases which can be prevented, tried. #### A DEBT OF HONOR.

A bill which has passed the house and is now pending in the senate would enable the mothers and widows of American soldiers who lie in France to visit the graves of their loved ones as the guests of the United States for two weeks. They would go over on government ships. They would be provided first-class accommodations everywhere they went, at their country's expense, and everything would be made as comfortable and easy for them as possible.

Some may criticise this proposal as "mere sentiment." So it is, and a very worthy sentiment, too. It's sentiment that Dearest Mom: makes the world go round. TELEPHONE SINNERS.

Have you ever, in the course of a conversation on a rural telephone line, heard a funny little click now and then as though a receiver were being surreptitously raised or lowered? So has Miss Marjorie Sims of the University of Illinois. "The average woman wastes a large part of her life visiting on the telephone," says Miss Sims. "Women should observe business hours as men do," she adds. And there are at least a few thousand overworked telephone operators in the country who will rise up and call her blessed for the remark.

In some communities the party line telephone serves as an illicit sort of newspaper. When the three rings that are supposed to summon only someone in the Jones Household are sounded, Mrs. Brown, Mrs. Smith and all the other neighbors, from the school house to the crossroads' grocery, fly in immodest and unseemly haste to listen in.

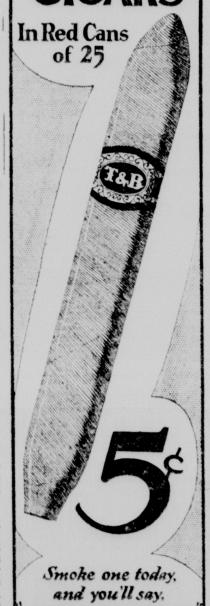

There is no such community, we are proud to state, nearer than seven or eight counties away from here. It is a nice thing to realize that we are a little more careful about this form of eavesdropping than the felk upstate and the felk downstate. It gives us a superior feeling, enables us to face the minister on Sunday without blushing and gives us the assurance that our children are being brought up in the sort of homes of which they may well be proud.

THIS HAS HAPPENED

SALLY FORD, 16, with a genius for acting, is aeifishly kept at the orphanage, which has been her home since she was four, in spite of efforts to adopt her, because her sympathy and understanding with small children make her a valuable helper to the matron. However, when CLEM CARSON asks that Sally be "farmed out" to him for the animer, the matron tells the girl she must go. Sally dislikes the farmer, but long years of obedience to authority seal her lips against profesting when the matron says she must go and she leaves to pack her few clothes for the trip.

Sally encounters little MISS THIS HAS HAPPENED

Sally encounters little MISS POND, sentimental, aympathetic office helper. When Sally begs her to tell her something of her mother, Miss Pond promiars to come to the locker room and tell her what she knows.

NOW GO ON WITH THE STORY CHAPTER III

BECAUSE she was leaving the orphanage for a temporary new home on the Carson farm, Sally was permitted to take her regular Saturday night bath that afternoon. In spite of her terror of the future. home but a state orphan asylum felt a thrill of adventure as she splashed in a painted tin tub, gloriously alone, unhurried by clamorous girls walting just outside the little cubicle.

The cold water-there was no hot water for bathing from April first to October first-made her skin glow and tingle. As she dried herself on a ragged wisp of grayishwhite Turkish toweling, Sally surveyed her slim, white body with shy pride. Shorn of the orphanage uniform she might have been any pretty young girl budding into womanhood, so slim and rounded and pinky-white she was.

"I guess I'm kinda pretty," Sally mirror that could not quite succeed just 12 years ago, by a woman who me-" in destroying her virginal lovelibeen kissed," she smiled to herself, widow, aged 28-" against the mirrored ones.

## **QUICK RELIEF FROM** CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 20 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative mixed with olive oil. No griping is the "keynote" of these little sugar-coated, olive-colored tab-lets. They cause the bowels and liver

to act normally. They never force them to unnatural action. If you have a "dark brown mouth"— bad breath—a dull, tired feeling—sick headache-torpid liver-constipation, you'll find quick, sure and plea

sults from one or two of Dr. Edwards Olive Tablets at bedtime. Thousands take them every night to keep right. Try them. 15c, 30c, 60c. F. P. OBERG

TXTHILE presenting our Annual Statement showing Assets VV of \$2,388,647,636-2 Billion, 388 Million Dollars-representing savings and investments of 25 million people in the United States and Canada, the Metropolitan Life Insurance Company desires to make clear what a life insurance company can do, what it should do and what, so far, it has been unable to do toward meeting what have been called the five great hazards of life:

#### Death

which may come early, before one's dependents have been provided for.

#### Accident

always sudden and often causing lessened earning power.

#### Sickness

which may cause want as well as suffering.

#### Dependent Old Age

which must seek charity if self-support is no longer possible.

#### Unemployment

which may bring distress to others in addition to the one unemployed.

The United States and Canada pay higher wages than other countries. Nearly all their workers earn enough to provide for both present and future needs. If they will but plan ahead they may have in their years of retirement, not merely bare existence, but real comfort.

Thousands of those interested in life insurance have asked how the family inome should be expended. Send for our Home Budget Booklet which tells how much should be spent for necessitiesfood, housing, clothing, fuel—and how much should be laid aside for protection. It will be mailed free.
